

Apps for 2017 BYOD (iPad) Program

Below is a list of apps requested for 5/6 students in 2017. These apps will need to be downloaded onto their iPad by Monday of week 2. As stated in previous documentation **the school will be purchasing all paid apps for students**, we are still in discussions with the CE as to how this will look as Airwatch has been discontinued for BYOD iPads in 2017. Any free apps on the list of required apps will need to be downloaded by either yourself or students using their BYOD itunes account. We ask that these apps remain on your child's iPad to support their learning during the BYOD program.

Paid Apps				
Creative Book Builder 	Tools for Students 	Reading Eggs Spelling Grade 5 	Reading Eggs Spelling Grade 6 	
\$4.99	\$1.49	\$2.99	\$2.99	
Free Apps

Google Drive 	Office 365 	Google Classroom & Google Docs 	EdWare 	The Calculator 
Google Maps 	Google Earth 	Lightbot: Code Hour 	Tynker 	Lino it 
Indonesian Apps				
Tap and Say 	Next Door land 			
To qualify for the free iWork apps you will need to have a device that was purchased or activated on or after September 1, 2013 . (*To get GarageBand for free, you need a device that was activated or purchased on or after September 1, 2014 .) If they are not already on your device go to the app store and scroll to the bottom of the featured page. Click the link "Apps made by Apple" and download the apps for free. If your device fits the criteria and the apps are not coming up as free downloads you will need to ring Apple support to rectify the issue.				
iWork Apps				
iMovie 	Pages 	Keynote 	GarageBand
