- From settings click on Mail, Contacts, Calendars

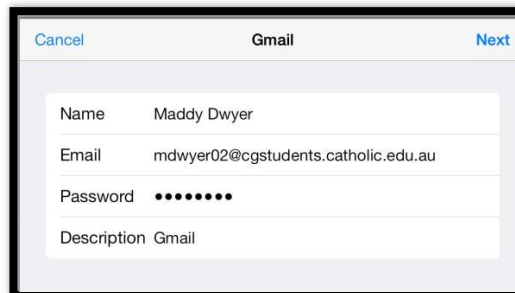

- Add Account

- Select Google

- Insert your child's name, email and password (as per the box below)

- Click Next and Save

Option 3: Using the Gmail app

Gmail app

Some people have had some issues setting up their child's mail account on the iPad so this is another option which is very easy to do.

- Download the Gmail app from the app store
- Sign in with your child's school email account and password username@cgstudents.catholic.edu.au (although this does not say gmail in the address it is a google account which has been set up by Catholic Education in partnership with Google).
- When prompted if you want Gmail to send you push notifications select 'Yes'
- Go through the tour or select the blue button that says 'go to inbox'
- Your Gmail account is now ready to go.
